

We produce a spray designed to clean a baby's diaper area during a diaper change. How do we get the product certified organic?

Go to the NOP website at www.ams.usda.gov/nop and then click on "Certifying Agents." Click on the "List of USDA Accredited Certifying Agents," then choose either domestic or foreign to find the closest Certifying Agent to you. Once you choose a Certifying Agent, and contact them, they will be able to explain all the steps required for you to become certified.
